

## OVERVIEW

### Simple and Accurate Mounting

The AM-220 angle infrared radiometer mounting bracket is designed to mount an Apogee Instruments' infrared radiometer (older solar shield design) or radiation frost detector to a mast or pipe with an outer diameter of 1.3" to 2.1". The bracket is designed to orient the sensors at varying angles to satisfy all applications.

### Accommodated Sensor Models

Bracket accommodates Apogee Instruments' infrared radiometers older SI and SIF series models and radiation frost detectors SF series models. For mounting infrared radiometers with the newer solar shield design, see our AM-250 commercial-grade mounting bracket.
