

Located in Logan, Utah, Apogee Instruments is a developer and manufacturer of innovative sensors used worldwide for meteorological, agricultural, horticultural, and renewable energy applications. If you value working hard on a variety of projects, having great coworkers, and being part of a small growing company, please review the job requirements below for:

RESEARCH AND DEVELOPMENT SCIENTIST

Technical Qualifications:

- Bachelors degree in disciplines such as Environmental Biophysics, Atmospheric Science, Soil Physics, or Plant Ecology is required, with an M.S. degree preferred.
- Understanding of the physical processes in the soil-plant-atmosphere continuum and a background in the instrumentation and measurement techniques used to quantify these processes.
- Ability to solve technical challenges while working with other scientists, engineers, and technicians.
- Experience with electronic data collection.
- Experience in data analysis and graphical data summarization with software such as Excel, Matlab, and R.
- Ability to communicate technical information clearly and concisely verbally and in writing.
- Creativity and aptitude for solving problems.
- Working knowledge of basic electronics.

Responsibilities:

- Work with scientists and engineers in the development and testing of new instrumentation, including experimental design and data collection, analysis, and interpretation.
- Summarize data with tables, graphs, presentations, and written reports.
- Research applications for existing and new product development.
- Write marketing literature, application notes, and user manuals.
- Travel to and represent the company at conferences and tradeshows.
- Assist with customer support.

This is a full-time position with competitive compensation and benefits, including health insurance, retirement, paid holidays, compensated leave, profit sharing, maternity/paternity, flexible hours, and a nice workplace. Compensation depends on experience, with an expected salary range of \$55000-75000.

If you made it this far and are still interested, meet the above qualifications, are a self-starter capable of working productively without supervision, and are eager to learn new things, please send a cover letter, resume, and references to:
