

Apogee Instruments of Logan, Utah, is an energetic manufacturer of innovative electronic sensors used in meteorological, agricultural, and renewable energy applications around the world. If you value a beautiful location, great coworkers and an organization that truly cares about its employees, please review the requirements below and submit your resume.

Application Sales Engineer

DUTIES AND RESPONSIBILITIES:

Develop, promote, and support Apogee Instruments products by:

- Interacting with scientists, researchers, distributors, and system integrators to assess their needs, recommend solutions, process orders, and resolve technical issues
- Creating scientific marketing materials by testing products and creating case studies, white-papers, posters, graphs, and other educational materials
- Occasionally attending trade shows, conferences and making customer visits
- Helping guide R&D efforts by recognizing changes in applications and markets
- Performing other tasks as assigned by the Marketing Director

KNOWLEDGE AND SKILLS:

Required

- Bachelor's degree in science, engineering, meteorology, agriculture, business or equivalent experience
- Proficiency with the MS Office Suite, especially Excel, Word, and PowerPoint
- Excellent written, verbal, and interpersonal communication skills
- Enthusiasm for working at a small, rapidly growing company

Preferred

- Postgraduate degree or training in science, engineering, or business
- Experience in technical sales, project/product management, and/or customer support
- Experience or training in electronics, environmental monitoring, and/or data loggers

This is a full-time, position with benefits. Compensation is commensurate with experience, but has an anticipated salary range of \$40,000-\$55,000 per year. Benefits include health insurance, retirement, paid holidays, compensated leave, and profit sharing. Work schedule is generally Monday-Friday 8 A.M. – 5 P.M.

If you are interested in this position and meet the above qualifications, please send your cover letter, résumé, and three references to:
