

Apogee Instruments of Logan, Utah, is an energetic manufacturer of innovative electronic sensors used in meteorological, agricultural, and renewable energy applications around the world. If you value a beautiful location, great coworkers, and an organization that truly cares about its employees, please review the requirements below and submit your resume.

## **Production Technician**

### **Job Summary**

The Production Technician will primarily focus on the completion of work orders, along with aiding in various aspects of the manufacturing process. Responsibilities include mechanical assembly of products, cable assembly, electronic potting, and various facility maintenance duties as requested.

### **Requirements:**

- Experience with consistent, fine, detailed work
- Operate production equipment safely and in accordance with standard operating procedures
- Knowledge and adherence of basic ESD protocols
- Maintain clean and organized workspaces
- Enthusiasm in being part of a small, growing company

### **Desirable Skills:**

- Experience in a manufacturing environment that stresses quality assurance
- Attention to detail with an emphasis on product improvement
- Be capable of lifting up to 50 lbs.

This is a full-time position with benefits. Compensation is commensurate with experience, but has an anticipated range of \$14-\$16/hour. Benefits include health insurance, retirement, paid holidays, compensated leave, profit sharing, and more. Work schedule is generally Monday-Friday 8 A.M. – 5 P.M.

If you are interested in this position and meet the above qualifications, please send your resume and three references to:
