

Apogee Instruments of Logan, Utah, is an energetic manufacturer of innovative electronic sensors used in meteorological, agricultural, and renewable energy applications around the world. If you value a beautiful location, great coworkers, and an organization that truly cares about its employees, please review the requirements below and submit your resume.

Soldering Technician

Job Summary

The Soldering Technician will primarily focus on the completion of work orders in a safe and timely manner while maintaining a high standard of quality. Responsibilities include manufacturing and testing of electronic assemblies, cable assembly, electronic potting, and assist in other pre-production inspections and processes. Other responsibilities include contribution in the fabrication of prototypes and development of new products, processes, or procedures when needed.

Requirements:

- Highly proficient in hand soldering with experience using lead-free solder
- Experience with consistent, fine, detailed work
- Operate production equipment safely and in accordance with standard operating procedures
- Knowledge and adherence of basic ESD protocols
- Maintain clean and organized workspaces
- Enthusiasm in being part of a small, growing company

Desirable Skills:

- Experience in a manufacturing environment that stresses quality assurance
- Attention to detail with an emphasis on product improvement
- Certified with IPC-A-610 and/or J-STD-001 standards
- Be capable of lifting up to 25 lbs.

This is a full-time position with benefits. Compensation is commensurate with experience, but has an anticipated range of \$18-\$20/hour. Benefits include health insurance, retirement, paid holidays, compensated leave, profit sharing, and more. Work schedule is generally Monday-Friday 8 A.M. – 5 P.M.

If you are interested in this position and meet the above qualifications, please send your cover letter, resume, and three references to:
